DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Friday, 29 April 2022 at 05:30 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels are generally expected to be Low across the UK today. However, some isolated pockets of Moderate are possible due to the persistence of settled conditions and light winds.

Tomorrow: Low levels of air pollution are largely expected to continue on Saturday, but isolated pockets of Moderate are possible across England and Wales, where it remains dry with light winds.

Outlook: Widespread Low levels of air pollution are forecast on Sunday, as outbreaks of rain move southwards. On Monday and Tuesday areas of Moderate are possible across England and Wales, as predominantly dry conditions and light winds return, otherwise Low levels are expected.
